

Flexors

Intermediate Idea Guide:

Don't do like this!

1. When plays with WaveLay for the first time, once begin from an easy shape after searching the materials sufficiently if freely bend, insert, roll and touch and so on, not attempting to make a certain shape from the start, he can enjoy without a burden.

2. WaveLay is a reusable toy that can make and then unloose. In case it was unloosed with the passage of time after making a piece of work, a pressed mark occurs in the light of rubber property. In such a case, once spread evenly, it returns to the original state.

Manage like this

3. In case the wave bar was contaminated, if lightly wipe with a water tissue paper, it becomes clean.

4. There is a connecting cap at the both sides edge of the wave bar. When connect and separate, if take it close to the connecting cap then pull out, you can prevent the connecting cap from slipping out

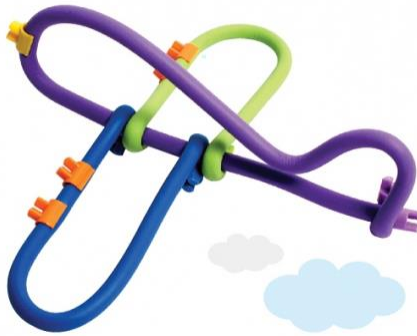

5. Put the use-finished wave bar on a desk or flat surface and evenly spread, pushing and pulling towards the outside & inside direction. Once spread the bent wave bar as if stretch the bent wave bar with all your might by two hands, the connecting cap at the edge of both ends can be come out
